

JMF

Herefords & SimAngus

6TH ANNUAL

Bull Sale

SATURDAY, FEBRUARY 1, 2020 - 1:00 PM CST
AT THE FARM, HOLLOWAY, MN - 20 MI. EAST OF BIG STONE CITY, SD

Welcome!

Hello folks! Again I sit down and am thankful to be able to write another introductory letter to our Annual Bull Sale. I wonder how many intro letters this sale season will start with the line, "What a year 2019 was..." I won't argue with any of them; it was one of those years that no matter what you did, it seemed as though things just wouldn't go forward. However, we are all in this business because we love what we do, and we charge on come hell or high water!

We will be offering 30 Hereford, SimAngus, and Angus bulls this year. In addition to the yearlings, there will be a handful of Hereford and Angus 2-year-olds. These two-year-olds are right from the top of the pack. As we invite you to our 6th Annual Sale, despite the crazy year it's been, come February 1st these bulls will stand at the ready for your evaluation!

Most of the Hereford bulls on the sale are Cowman 35D sons. We will be calving the first set of 35D daughters in February and are impatiently waiting to see what they turn in to be. As of now they are soggy, easy doing, moderate females that have brood cow written all over them. Their 2019 half and full sibs are as consistent of a set of offspring we have raised so far. Thick made, loose hided, good footed cattle that you can take into your operation and depend on. We like a no-nonsense approach to what we do. We evaluate our cattle in the yard and in the field, and then make use of the additional tools available in the industry today.

The bulls are on a TMR ration of grass hay, cracked corn, DDGS, and a Form-A-Feed protein pellet. On December 23, 2019, they were poured with Clean Up II and Eprinex. All bulls have been on a complete vaccination program. We are offering complementary feed through April 15, 2020, at which time the bulls will have their breeding soundness exam. We would like the bulls to be picked up or delivered after they pass their exam.

I would like to thank my loving family for all they have done for me this year. Our kids are my greatest treasure. The kiddos have continued to be very involved with our operation. They all broke their first calves this year - it was awesome to see them work on their calves. It brought out the work ethic and dedication in them very quickly. My hats off, kids, keep up the good work. Dad is watching! Makayla is also due on January 12th with another little one.

*Looking forward to working with you and meeting new faces. Please to do not hesitate to call with any questions.
Jared: (320) 413-0483.*

*See you on Sale Day!

JMF HEREFORDS AND SIMANGUS - 6TH ANNUAL BULL SALE

JMF ^{6TH ANNUAL} *Bull Sale*

Herefords & SimAngus

At the farm, Holloway, MN
Saturday, February 1, 2020 | Dinner at Noon, Sale at 1 p.m. CST

In the event of bad weather, postponement date is Saturday, February 8, 2020.
Postponement information will be available at www.JMFHerefords.com prior to 8:00 a.m. on February 1.

SALE CONTACTS

Jared Flower: 320-413-0483
Makayla Flower: 605-690-6050
Will Bollum, Western Ag Reporter: 507-244-0833
Alex Acheson, American Hereford Association: 785-366-1185

TERMS AND CONDITIONS

Terms of the sale are cash. All lots are to be paid in full at the conclusion of the sale. Absentee buyers are to pay within 2 weeks of the sale.

WINTERING AND BULL DEVELOPMENT

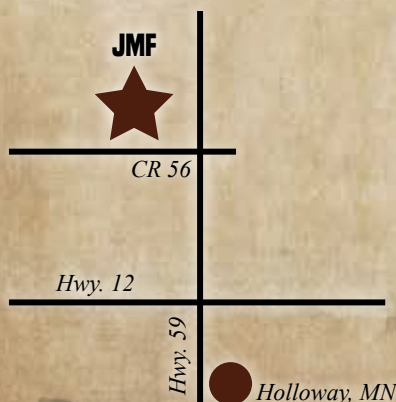

Bulls are able to stay at JMF until April 15, 2020 at no charge. They will then have their semen exam, receive pre-breeding vaccinations and be ready for pickup or delivery. We do ask you take possession of your bulls at this time. After April 15, yardage will be charged at \$5 per head/day. Cattle left at JMF will be at buyers risk immediately following the sale. We strongly encourage buyers to purchase a mortality insurance policy for any animal(s) left to be wintered.

GUARANTEE

Unless otherwise noted, all bulls will have passed a breeding soundness exam prior to pick up or delivery. In addition to the standard Term and Conditions of the American Hereford Association and the American Simmental Association, we will provide the first breeding season (the 90-day period immediately following turnout) guarantee on all bulls. This guarantee is not an insurance or mortality policy, but a guarantee on functional fertility. It is not a substitute or replacement for poor management. Buyer assumes all risks for injury due to running bulls together or management decisions outside genetic control. For the guarantee to apply, we ask that you contact us as soon as a condition is observed and before the animal is sold. We will work with you to determine whether the animal is returned or sold for slaughter. We will attempt to provide a suitable replacement. If one cannot be provided of equal or greater value, we will issue a sale credit to be used in a future sale for the full purchase price less the salvage value of the animal.

DIRECTIONS

Located 4 miles north of Holloway, MN on Highway 59, turn west on County Road 56. JMF is the first place on the north.

SALE FORMAT

The sale offering will sell in a bid-off format. If interested in a lot(s), sign up to receive your bidder card. Bid-off will begin at 1:00 pm. Each lot will open with the base price that is listed in the catalog. Simply raise your bidder card to bid. Please keep your card in the air for as long as you wish to stay in on the lot. We will raise the bid in \$100 increments until there is only one bidder card remaining in the air. All lots are to be paid in full at the conclusion of the sale.

****Please ask with any questions on the sale format.**

BASE PRICES

Base prices are listed for each lot. This is the value the bidding will begin at for each animal.

VIDEOS

Videos on the sale offering will be available mid-January at www.JMFHerefords.com.

EPD'S

EPD's current as of 12-23-19.

SUITABLE FOR USE ON HEIFERS

JMF Herefords and SimAngus is calling certain individuals 'suitable for use on heifers.' This means we have evaluated, to our best ability, to select bulls that we feel you will have the least amount of trouble and the most amount of success in breeding your heifers. However, this is not a guarantee you will never pull a calf out of these bulls or never have trouble. Know your operation and know your cattle while selecting bulls.

ABSENTEE BIDDING

If you would like to place a bid but are unable to attend the sale, please call any of the Sale Day Contacts to place a bid or to be on the phone sale day. We will accommodate you in any way we can.

DELIVERY

Free delivery on all bulls within a 300-mile radius of the sale. In the event you have a further distance to travel, we will assist in the coordination of your animals' delivery.

FURTHER CONTACT INFORMATION

Address: 1630 10th Street NW, Holloway, MN 56249
Email: jmflower.11@hotmail.com
Website: www.JMFHerefords.com

PLEASE NOTE

All persons who attend the sale do so at their own risk. Owners assume no liability, legal or otherwise, for accidents or loss of property that may occur.

PLEASE BRING YOUR CATALOG
on Sale Day!

RANGELINE COWMAN 735D

Cowman is a past resident herd sire and currently resides in Montana. His progeny are bold ribbed, stout made bulls with big testicular development. We were very impressed with how easy the Cowman bulls collected at semen checking time along with the quality of the semen. We are impatiently waiting for his first heifers to calve in February. They look great!

Sire of: 855F, 906G, 916G, 919G, 920G, 924G, 926G, 929G, 930G, 933G, 940G, 942G

DAM: JMF 15X CALAMITY 633D
 WCC 3X 18X MS TANK 015Z

BASE PRICE: \$2800

Twin to 920G, raised by a foster dam. Moderate, stout, loose made bull with a big hip that prances around the yard like a stud. Big scrotaled bull. Take note of the ID on his mother, 633D. She is becoming a very productive little cow much like her full sister, 518C. Weight on 633D is 1250 @ 3 years of age with 3 calves born. 919G is a bit lower for Calving Ease Direct but a very acceptable Actual Birth Weight of 78 lbs., if you would like to use him on heifers.

Suitable for use on heifers.

“We have been very pleased with the quality bulls we have purchased from JMF Herefords and SimAngus. Each bull has a great disposition, is able to maintain a good body condition throughout the breeding season and winter months, and has the ability to cover the country they get turned into here in Montana. We have seen a very noticeable difference in our calf crop.

THESE BULLS HAVE ADDED LENGTH, THICKNESS, AND BONE TO THEIR OFFSPRING.

When wanting to crossbreed an Angus cow to a Hereford bull, we find that JMF Herefords and SimAngus is hard to beat!

- WYATT AND CASSIE HANDY OF HANDY RANCH, CIRCLE, MONTANA

Wyatt and Cassie have purchased multiple bulls in 2018 and 2019. They run a large cow/calf operation at Handy Ranch in Eastern Montana.

BASE PRICE: \$3000

Again, another Hickok x Cowman mating here. There is a lot of power in this guy and I think he can be used in a number of different ways. Low birth weight bull to use on heifers, yet enough growth to make awesome steers - and has the cow to back him up to raise beautiful daughters. His mother is one of our top end cows. His full sister I am expecting no less of as she is coming with her first calf. 924G ranks in the top 5% of the breed for Calving Ease Direct and the top 10% for Birth Weight. Herd bull! Suitable for use on heifers.

2019 AT JMF WAS FULL OF.... TOURS!

We were thrilled and humbled to be a part of 3 different tours during 2019. In July, we were 1 of 8 tour stops during the Minnesota State Cattlemen's Tour. Late September brought the Minnesota State Hereford Tour, and we enjoyed hosting breakfast and the evening supper and social.

A group of 20 cattle producers and farmers from Finland visited us in October. *Pictures from each tour are included in this catalog, keep flipping to find them!*

 TH RANGELINE 14Z PLAYMAKER 747B {DLF,HYF,IEF,MSUDF}
DAM: RANGELINE 13U BETSY 133E
 RANGELINE 17N BETSY 13U

BASE PRICE: \$2800

928G would be from the 13U cow family from Rangeline on the bottom side, same cow family as the 121A cow you may have seen producing bulls in the past. 928G is a very loose hided calf who should be very easy fleshing, while being moderate framed. Paternal grandmother, 406B {DOD} by UPS Domino 3027 and Pyramid 9116, is a front pasture cow with a very good production record. 928G ranks in the top 5% of the breed for Calving Ease, top 15% for Birth Weight, and top 35% for BMI and CHB. **Suitable for use on heifers.**

BASE PRICE: \$2500

Mesa son that has us very excited, mostly because of the cow power he has behind him. Unfortunately, we lost his dam this year due to an injury. 949G is lighter due to being an orphan part of the summer. 949G ranks in the top 20% of the breed for Marbling and Birth Weight, and top 25% for Calving Ease. Herd bull! This guy could walk with purebred cows.

Retaining a semen interest for in-herd use.

949G

JMF 15X MESA 612D

Mesa has been our choice to move forward with the Hickok bloodline. We are very excited about him in terms of maternal, udder quality, and most of all - foot structure. His 9116 dam, 'Polly,' is moderate, deep sided, and very easy fleshing. Mature weight of Polly is 1375 lbs.

Sire of: 946G, 949G

LOOKING FOR AN OPTION TO MARKET YOUR FEEDER CALVES?

David Larson farms near Donnelly, MN with his wife, Hannah, and two children, Thorstein (3.5) and Elroy (1.5 months). He raises corn, soybeans, wheat, alfalfa, runs a few purebred Hereford cows, and feeds out about 300 head of cattle a year. He is looking for groups of Hereford influenced calves that are vaccinated and could be sold as Certified Hereford Beef. Call David at 320-219-0077.

BASE PRICE: \$2800

3/4 Simmental, 1/4 Angus

A very logical option to use on heifers without sacrificing performance. 943's mother, 719E, is out of one of my favorite cows at Anderson Cattle Company. As a first calf heifer, 719E herself weighs 1000 lbs., is loaded with maternal and displays a near perfect udder. 943G stems from the very proven BC Lookout 7024. 943G ranks in the top 15% of the breed for Calving Ease and Fat, and the top 20% for Birth Weight, Milk, and Stayability. **Suitable for use on heifers.**

This bull is just what we were hoping for out of this mating. He is a son of the Wulfs Stimulus bull that we purchased from Wulf Cattle. We bought the bull hoping to make some awesome females and bulls just like this guy. Deep as they come on a good set of feet and legs. This is the kind to raise cows out of!

This bull is a great introduction to JHA. He is out of the very popular PVF Insight bull and our donor going back to Leachman Right Time and the Traveler 23-4 bull. He is the result of the best flush we have had on the farm. We have a full brother at home and seven sisters in the replacement pen out of nine calves. Consistent and powerful with a usable birth. Keep his daughters and sell some growthy steers.
