

JMF

Herefords & SimAngus

8th ANNUAL
Bull Sale
1:00 PM | FEBRUARY 5, 2022

PROUD TO SERVE THE COMMERCIAL CATTLEMAN

Welcome!

JMF

Herefords & SimAngus

Offering:
POLLED HEREFORD
SIMMENTAL
SIMANGUS
20 YEARLINGS
5 18-MONTH-OLD &
TWO-YEAR-OLDS

“As we look back at this year, many things come to mind in a variety of ways. Politics, weather, economics, the actions of people, and more. Two things that I find for myself that stay constant are family and our way of life, the cowherd. Everything we do revolves around these two things, and we work hard to maintain it all - through the good and the bad. We are always pushing our cowherd forward to improve, grow, and make it better.

The JMF Family is proud to be a part of this great industry. We strive to be a seedstock source of dependable, efficient, proven genetics with a no nonsense approach. Now more than ever before, we see the benefits of good feet, functional udders, true maternal ability, and natural performance. JMF will always consider these traits first and foremost in our selection criteria.

The economic value of using Hereford bulls in your commercial program is second to none. You not only reap the benefits of Heterosis but set yourself up with a female that is valuable in terms of versatility. I see a lot of folks put an Angus bull back on their Baldie cow. Instead, take advantage of what you have created and let those Baldies get bred by a Simmental sire. Pounds, efficiency, and end product are all in one package.

The bulls were weaned October 15th, left on grass until October 25th, and then brought into the yard. They have been on silage, corn, DDGS, and CRP hay.

I would like to take this time and thank my wonderful family. Not knowing where to begin, I'll just start with saying congrats to Makayla for taking on the Editor position of The Stockman magazine. Our kids- wow - these guys are the best! I love Jaelyn's interest in our work. The boys are going to be the best tractor drivers east or west of anywhere someday. Our little Emerson - I couldn't imagine life without her giggle.

See you on Sale Day!
-Jared Flower and the JMF crew

8th ANNUAL Bull Sale

1:00 PM | FEBRUARY 5, 2022

At the west farm, Holloway, MN
Dinner at Noon, Sale at 1 p.m. (CST)

In the event of bad weather, postponement date is Saturday, February 12, 2022. Postponement information will be available at www.JMFHerefords.com prior to 8:00 a.m. on February 5th. Please call with questions.

SALE CONTACTS

Jared Flower (320) 413-0483
Makayla Flower (605) 690-6050
Wyatt Handy (406) 787-7066

TERMS AND CONDITIONS

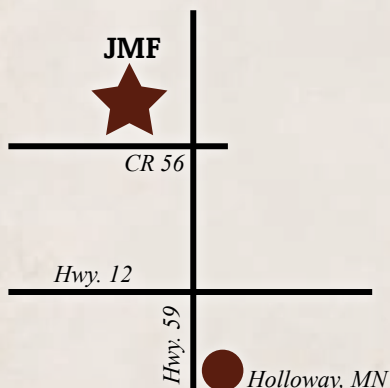

Terms of the sale are cash. All lots are to be paid in full at the conclusion of the sale. Absentee buyers are to pay within 2 weeks of the sale. If you choose to haul your bull home on sale day, we will credit you \$50 per bull for the semen exam. Mail or email us a copy of the semen exam certificate - once completed - to receive your credit.

WINTERING, BULL DEVELOPMENT, AND INSURANCE

JMF would like to develop the yearling bulls until April 15, 2022 at no charge. They will then have their semen exam, receive pre-breeding vaccinations and be ready for pickup or delivery. We do ask you take possession of your bulls at this time. After April 15th, yardage will be charged at \$5 per head/day. **Aged bulls have already passed their semen exam and we ask that you take possession of these bulls as soon as possible.** Cattle left at JMF will be at buyers risk immediately following the sale. We strongly encourage buyers to purchase a mortality insurance policy for any animal(s) left to be wintered. Please let us know if you need a contact for insurance and we would be happy to assist you with that.

DIRECTIONS

Located 4 miles north of Holloway, MN on Highway 59, turn west on County Road 56. JMF is the first place on the north.

GUARANTEE

All yearling bulls will have passed a breeding soundness exam prior to pick up or delivery on or after April 15, 2022. All aged bulls have passed a breeding soundness exam prior to the sale. In addition to the standard Term and Conditions of the American Hereford Association and the American Simmental Association, we will provide the first breeding season (the 90-day period immediately following turnout) guarantee on all bulls. This guarantee is not an insurance or mortality policy, but a guarantee on functional fertility. It is not a substitute or replacement for poor management. Buyer assumes all risks for injury due to running bulls together or management decisions outside genetic control. For the guarantee to apply, we ask that you contact us as soon as a condition is observed and before the animal is sold. We will work with you to determine whether the animal is returned or sold for slaughter. We will attempt to provide a suitable replacement. If one cannot be provided of equal or greater value, we will issue a sale credit to be used in a future sale for the full purchase price less the salvage value of the animal. **For the guarantee to apply on bulls that were hauled home on sale day, you must provide a semen exam certificate. If a buyer hauls bulls home sale day and chooses to not semen test bulls prior to turnout - the guarantee does not apply.*

SALE FORMAT

The sale offering will sell in a bid-off format. If interested in a lot(s), sign up to receive your bidder card. Bid-off will begin at 1:00 pm. Each lot will open with the base price that is listed in the catalog. Simply raise your bidder card to bid. Please keep your card in the air for as long as you wish to stay in on the lot. We will raise the bid in \$100 increments until there is only one bidder card remaining in the air. All lots are to be paid in full at the conclusion of the sale.

****Please ask with any questions on the sale format.**

BASE PRICES

Base prices are listed for each lot. This is the value the bidding will begin at for each animal.

VIDEOS

Videos on the sale offering will be available mid-January at: www.JMFHerefords.com.

SEMEN INTEREST

JMF will be retaining a 1/3 semen interest on all bulls selling for in-herd use only.

CANDIDATE FOR HEIFERS

JMF Herefords and SimAngus is calling certain individuals as a "Candidate for heifers." This means we have evaluated, to our best ability, to select bulls that we feel you will have the least amount of trouble and the most amount of success in breeding your heifers. However, this is not a guarantee you will never pull a calf out of these bulls or never have trouble. Know your operation and know your cattle while selecting bulls.

ABSENTEE BIDDING

If you would like to place a bid but are unable to attend the sale, please call any of the Sale Day Contacts to place a bid or to be on the phone sale day. We will accommodate you in any way we can.

DELIVERY

Free delivery on all bulls within a 200-mile radius of the sale. In the event you have a further distance to travel, we will assist in the coordination of your animals' delivery.

FURTHER CONTACT INFORMATION

Address: 1630 10th Street NW, Holloway, MN 56249
Email: jmflower.11@hotmail.com
Website: www.JMFHerefords.com

PLEASE NOTE

All persons who attend the sale do so at their own risk. Owners assume no liability, legal or otherwise, for accidents or loss of property that may occur.

All announcements made sale day take precedence over the printed catalog.

PLEASE BRING YOUR CATALOG

Sire of multiple dams to the sale bulls, prominent foundation sire at JMF, and past resident herd sire. We are building our Hereford cowherd around Hickok - the production records of all his daughters are impressive. Look for the Hickok x Cowman mating - that cross has worked very well for us.

Mesa has been our choice to move forward with the Hickok bloodline. We are very excited about him in terms of maternal, udder quality, and most of all - foot structure. His 9116 dam, Polly, is moderate, deep sided, and very easy fleshing. Mature weight of Polly is 1375 lbs.

Cowman is a past resident herd sire and currently resides in Montana. His progeny are bold ribbed, stout made bulls with big testicular development. We were very impressed with how easy the Cowman bulls collect at semen checking time along with the quality of the semen.
